## Vegetable Shares

Our vegetable shares are “free choice.” For \$20 per week you can take home all the vegetables you’d like. You choose what you want and how much. We simply ask that you limit yourself to only what you will actually eat in a week. During the season there may be times when we have a surplus of a crop and we will encourage you to take our excess home and preserve it. We also expect members to have guests in their homes at times. We’re always happy to have you share our food with new people. We ask you to be conscientious and to pay separately for any vegetables that you will use to entertain a large number of guests.

Our vegetable shares are priced for individuals. If you are joining as a couple or family you would purchase a share for each member of your family. Children’s share prices are pro-rated by age and listed below. The CSA season this year is 25 weeks (June through Thanksgiving) and the Farmstore will be open on Wednesdays from 2-6 pm for members to pick up their shares.
